Foreword

Our vision is for North Ayrshire to be the best place to work, live and grow up in Scotland. To do that we need to improve economic growth, close the attainment gap and use our resources to their full potential.

We need an enormous amount of help from our partners and businesses to succeed. Most importantly we need help from our communities to shape our services and ensure that we use our resources in the best way. By working together we will achieve our ambition of being an area with thriving places that collectively add up to everyone being offered ‘a better life’. In recent years we have made much progress with this partnership journey, creating our ‘Team North Ayrshire’ approach to business growth and our Locality Partnerships to work with our communities.

This Annual Performance Summary highlights some of our successes over the last 12 months. More data about our performance is available at our North Ayrshire Performs portal on our website at: www.north-ayrshire.gov.uk/councilperformance
