Appendix 1: Important Contacts
It gives me great pleasure to welcome you and your child to St. Mary’s Primary School. This handbook contains helpful information regarding all aspects of school life. Please do not hesitate to contact me at the school if you wish to clarify any points mentioned in the handbook, or discuss any issues relating to your child’s education.

Covid-19 restrictions may have changed the way we work slightly, but it hasn’t changed our values or our sense of community. Every effort is made to ensure effective communication and partnership between staff and parents/carers to provide the best learning environment for your child, with as much normality as possible.

At St. Mary’s Primary School we ensure that every child achieves their full potential. We place learning in a real-life context to ensure our pupils develop skills which will enable them to confidently undertake further education and participate effectively in the world of work. We take a holistic approach to every child to meet individual needs and that every child is socially and emotionally ready for the future and has a positive and resilient mindset.

The staff work very hard as a team to maintain a positive, nurturing ethos. Every child is encouraged to be an independent, responsible and respectful member of our community.

As a Catholic school, our Christian faith permeates all aspects of school life, where everyone is treated with equality, fairness, love and respect. The role and participation of parents in this journey of faith is extremely important.

Parents are warmly welcomed into the school to share their skills and expertise to enhance provision for our children. There will be opportunities to meet your child’s class teacher throughout the year and we have an open-door policy where we are keen for parents to share any worries or concerns they may have.

I look forward to working with you and your child.

Yours sincerely,

Mrs Mary Hume
Head Teacher
Communities Directorate (Education Services)

What we want to achieve

Our Overall Aim

Ensuring our children and young people experience the best start in life.

Our Priorities

• We will create the conditions for our children and young people to access the highest quality learning experiences from ages 3-18.

• We will support our children and young people to become successful learners, confident individuals, effective contributors and responsible citizens.

• We will offer opportunities to our young people and their families to play a more active role in school life and encourage more participation in learning.

• We will work with all young people to build their resilience, supporting their mental health and physical well-being.

Educational Aims of St. Mary’s Primary School

Vision

The whole school community will work as a team to ensure that all children can be Successful Learners, Confident Individuals, Responsible Citizens and Effective Contributors. Our children will develop the knowledge, skills and attributes they will need to flourish in life, learning and work, now and in the future. Our school will be a nurturing environment where children are supported and challenged to investigate, explore and embrace all experiences and outcomes within Curriculum for Excellence.

Our School Values

FAITH COMPASSION AMBITION RESPECT
Aims

- St Mary’s is a welcoming, happy, safe, inclusive and nurturing environment where everyone is valued and children’s rights are respected.

- We will develop as a community of faith and learning by promoting Gospel values and through celebration and worship; sharing our God-given talents for the common good.

- Our children will be motivated, encouraged and stimulated through a variety of high quality learning and teaching experiences; differentiated to meet the needs of all learners.

- As a community, we will celebrate the personal and wider achievements of all, both in class and at assemblies.

- Our partnership with parents, parish, local community and partner agencies, based on mutual respect and support the health and wellbeing of all our young people.

- We will maintain high standards and expectations, challenging our learners to be aspirational. They will be challenged and supported to set their own targets and achieve their goals in learning and life.

- We will promote the values of Global Citizenship and learning for sustainability to promote care for both our immediate environment and the wider world.

We are an accredited Silver Rights Respecting School and the United Nations Convention on the Rights of the Child (UNCRC) underpins everything we do here at St. Mary’s.

We are working towards achieving the Gold Award.
Catholic Ethos – Religious Education

- In the Catholic community of St Mary’s we aim to assist our pupils in the formation and development of a personal faith. Our Christian faith is the underlying factor in the ethos of school life determining the attitudes, values and the relationships within the school. Religious education is not just another area of the curriculum but permeates our daily lives.

- Our RE programme follows the guidance of the document “This is Our Faith,” which presents the traditions and beliefs of the Roman Catholic Church in a challenging and meaningful way, encouraging our children to live out their faith.

- The school works closely with parents and parish for the preparation of P.3 pupils receiving the Sacrament of First Reconciliation, and with P.4 pupils to prepare them for Confirmation and First Eucharist. Throughout the school year Monsignor Magee, our chaplain, is a frequent and welcome visitor to the school. Class and school visits are made to St. Mary’s Church throughout the year.

- We foster an active prayer life in pupils, both individually and in groups. We celebrate our faith with class; departmental and whole school assemblies as well as Advent, Lenten and penitential services. Class Masses and the celebration of Mass either in St. Mary’s Church or in school on feast days and special occasions are notable parts of our religious observance programme and parents are most welcome to participate. Our faith influences every part of school life and we encourage our whole school community to uphold these Christian values.

- Under the terms of the Education (Scotland) Act 1980, parents have the right to ask for their child to be withdrawn from religious observance. The school will deal with such requests with sensitivity and understanding. The head teacher will offer to meet with any parent wishing to withdraw their child to ensure that they are clear about the school policy on religious observance. In particular, parents should be reassured that the religious observance planned by the school adopts an open and respectful approach and does not seek to compromise the beliefs of any pupils or their families. Where a child is withdrawn from religious observance, suitable arrangements will be made for the pupil to participate in a worthwhile alternative activity.

- The God’s Loving Plan Programme is used to foster positive friendships and relationships. Each year P7 and P6 parents are invited to meet with the school
to hear about and discuss the content relating to puberty.

School Ethos

St Mary’s is a highly successful school regarding attainment and achievement. All staff, pupils and parents work hard to maintain our great reputation.

We have successfully achieved many awards e.g. 5th Eco Flag, Fairtrade Award, Rights Respecting Schools Award and we were delighted to reach the finals of the Scottish Education Awards in the Employability category organised and judged by Scottish Government.

We have a close partnership with Inverclyde National Sports Centre which has been further enhanced and developed when we moved to the new Largs Campus. We will have many more opportunities to work with Inverclyde coaches who already regularly visit and support our school. We have held two whole-school shows at the Vikingar, which were very well received by the St. Mary’s Community. We also work closely with Scottish Opera to produce school shows.

In St Mary’s every pupil is part of a Pupil Leadership group with each group facilitated by a member of staff. These include; Pupil Council, Eco, Health and Wellbeing, Digital Leaders, Fairtrade, Mini Vinnies, 1+2 Leaders and Rights Respecting School. The Pupil Leadership groups meet every second Thursday afternoon and are responsible for helping drive our improvement agenda forward.

St Mary’s Primary is very much part of the Largs community in which it is situated. Pupils are encouraged to take care of their environment (local beach clean) and to be aware of the needs of others around them. Fund raising for local charities and national charities, Largs Food Bank, CashforKids, Mary’s Meals and Cancer Research and various other charities during Lent, Advent and at Harvest time is well supported.

Participation in local community events and competitions is well established: Literacy Competitions, Library visits, European Quiz and the Rotary Quiz. The local Largs community support us in providing short work placements as part of our Skills for Work Programme.

We have excellent relationships with community partners such as; community police, fire brigade officers, road safety officers, the crossing patroller, community wardens, the recycle officer and Red Cross etc. The Community Police constable, school nurse and the Community Learning and Development team and Red Cross greatly enrich our Health and Wellbeing programme.

Pupils also go out into the community; visit the library, sports facilities and participate in intergeneration working by entertaining our elderly residents through song and dance.
St Mary’s School is an extension of St Mary’s Parish. We have good links with the Parish and during May and October members from the parish lead the lunchtime Rosary Group in school. Children participated in the Faith & Fun Week organised by the St. Mary’s church.

*Pupils’ attendance will be 190 days after deducting the 5 In-Service days.*
Section 2: School Procedures

School Security
North Ayrshire Council has introduced procedures to ensure the safety and security of children and staff when attending or working in a school. A number of security measures are used including the use of security access control gate and school entrance, a visitors' book, badges and escorts while visitors are within the school building. Any parent/carer or visitor at a school for any reason will be asked to report to the school office. The school staff will then make any necessary arrangements in connection with the visit to the school.

It is the policy of the school that any member of staff will approach a visitor and ask for verification of identity. This measure ensures that children work in a safe and protected environment. We appreciate your support in carrying out all of the above measures.

Positive Relationships
The school is committed to developing a nurturing approach and promoting positive relationships, with children’s rights underpinning our approach. Like every community, our school is built on the relationships within it, across it and its connections with others. Every member of staff is responsible for establishing and maintaining positive relationships with each other, with parents and with partners and most importantly with the young people in their care.

Our expectations of behaviour for children and young people are high, underpinning North Ayrshire Positive Behaviour policy. Some children may require additional support in relation to their behaviour, and the school will work positively with the young person and the parents, and other partners, as appropriate, to ensure positive outcomes are achieved.

North Ayrshire Council is committed to the principles of restorative practices. This is a solution-focused approach to managing behaviour and resolving difficulties and which promotes healthy relationships that enable better behaviour and better learning.

The school has a behaviour charter to ensure the safety and well-being of all and parents are asked to support the school fully in this matter.

Playground Supervision
The Council meets the terms of the legal requirement that pupils be supervised in the playground by at least one adult during the interval or lunchtime if there are fifty or more pupils at the school. Our policy reflects that of North Ayrshire Council in terms of the Schools (Safety and Supervision of Pupils) (Scotland) Regulations 1990.

An adult presence is provided in playgrounds at break times. Pupils who travel by contracted school transport and arrive at school more than ten minutes before the start of the school day have accommodation allocated to them within the school during inclement weather.

Absence from school premises at breaks
Schools have a duty to look after the welfare of their pupils. This means that the staff should take the same care of pupils as a sensible parent would take, and this includes taking reasonable care of pupils’ safety during intervals and lunchtimes.

It is the policy of North Ayrshire Council that pupils should not leave the school grounds at intervals. Primary pupils should only leave school grounds at lunchtimes when they are going home for lunch with their parents' agreement. Parents should put this request in writing to the Head Teacher. Pupils
will leave and return through main entrance door of the school.

Parents should encourage their children to follow these rules in the interests of safety.

School Dress Code
It is the policy of North Ayrshire Council to support the introduction of a reasonable and flexible dress code in schools in its area. The Council encourages each school to adopt its own code, after consultation with parents and pupils.

The Council believes that establishing a school dress code has many benefits. These include improvements in safety, security, positive behaviour and community spirit and a decrease in bullying and in expense for parents.

The Council will support schools in encouraging and helping pupils to conform to the chosen dress code. Some types of clothing will not be allowed at school in any circumstances, for reasons of safety, decency or wellbeing.

Types of clothing which will not be allowed include:

- Clothes which are a health or safety risk
- Clothes which may damage the school building
- Clothes which may provoke other pupils
- Clothes which are offensive or indecent
- Clothes which encourage the use of alcohol or tobacco

All items of clothing should be clearly labelled with the child's name in case of loss. It is appreciated that parents and pupils are distressed over the occasional loss of pupils' clothing and/or personal belongings. Parents are asked to assist in this area by ensuring that valuable items of clothing or personal belongings are not brought to school.

Personal Belongings
It is appreciated that parents and pupils may be distressed over the occasional loss of pupil’s clothing and/or personal belongings. Parents are asked to assist by ensuring that valuable items of clothing or personal belongings are NOT brought to school.

*Parents should note that the authority does not carry insurance to cover the loss of such items.*
Dress Code for PE
For health and safety reasons all children must wear suitable clothing for PE. This consists of black shorts and white t-shirts with soft shoes for indoor activities.

We adhere strictly to health and safety guidelines and pupils must remove any item that may cause danger, i.e. metal buckles, jewellery. These items are the responsibility of the pupil. Long hair should be tied back.

School Meals
Meals are served daily from the multi-choice cafeteria. The meals are planned to offer a healthy diet for the children. Please inform us if your child has any specific allergies. Parents of children who require a special diet can arrange this by contacting the school.

There are arrangements in place for children who would prefer to eat a packed lunch.

Mobile Phones
While the benefits of mobile phones are recognised, they can be a serious distraction to work. Pupils whose mobile phones disrupt lessons can have them confiscated until the end of the school day. Repeated disruption may result in phones being retained until uplifted by a parent.

Inappropriate use of text messages and/or photographs/recordings (video and audio) whilst in school may be treated as a breach of the school’s code of conduct or a serious incident, which could be referred to the police.

Information in Emergencies
We make every effort to maintain a full educational service but on some occasions circumstances arise which lead to disruption. Schools may be affected by, for example, severe weather, and temporary interruption of transport, power failures or difficulties of fuel supply. In such cases, we shall do all we can to let you know about the details of closure or re-opening. We will keep you in touch by using Groupcall Xpressions app, letters, texts (where possible), NAC website, notices in local shops and community centres, announcements in the press and West FM.

Should you have doubts about deteriorating conditions during the day, it may be advisable to contact the school. Parents should ensure that the school is aware of the emergency arrangements made for their child and have responsibility to update us with contact numbers.

Listening and Learning
It is the policy of North Ayrshire Council to try to encourage feedback on the education service from parents and pupils. This is part of our overall commitment to giving the best possible service and to working in partnership.

We are therefore very interested in feedback of all kinds, whether it is compliments, suggestions or complaints. If you wish to register a comment of any type about the school you can do this by writing, telephoning or making an appointment to see someone. All feedback is welcome and helps us keep in touch.

If, in particular, you have a complaint about the school please let us know. It is better that these things are shared openly and resolved fairly, rather than being allowed to damage the home/school relationship. There will be no negative consequences arising from making a complaint and we will deal with the issue as confidentially as possible. If we have made a mistake we will apologise quickly and clearly and try to put things right.
There are some things which you should note in relation to making a complaint:

- The Council has a Two Stage procedure when handling complaints from parents and members of the public. More details on the two stages can be found in the Council’s complaint page here:

- It is helpful if complaints are made initially to the school’s Head Teacher. This ensures the school is made aware of what is going on and has an opportunity to investigate and try to resolve the issue at Stage One first.

- We try to resolve all complaints as quickly as possible but if a complaint is complex more time may be needed to investigate. It is therefore helpful if you can provide full details of the issue at the outset and ask for an early appointment to discuss it.

- If you are not satisfied with a response you receive at Stage One, you can ask that your complaint is escalated to Stage Two. Should you wish to do this you should contact Education Services at Cunninghame House, Irvine, KA12 8EE or by telephone on (01294) 324400.

- If, after receiving the Stage Two final response letter you remain dissatisfied you can ask the Scottish Public Services Ombudsman to consider your complaint and we’ll tell you how to do this in the Stage Two response letter.

- Parent Councils have an important role in developing links between the school and the wider parent body and can often be helpful in dealing with issues of general concern. However, parents are advised that individual, personal complaints are not appropriate for raising via Parent Councils due to the possible need for confidentiality.

- Please note you can also raise concerns you may have with your local Councillor, MSP or MP but these will be handled under a different process to the Two Stage complaint process.
Section 3: Educational Grants: Footwear, Clothing, Free School Meals and Transport

Footwear and Clothing Grants
Parents receiving Universal Credit will normally be entitled to grants for footwear and clothing for their children. Universal Credit claimants’ monthly income must not exceed £625.00, however, some parents earning more than this may still be eligible.

Parents who receive Income Support, Income based Job Seeker’s Allowance, any income related element of Employment and Support Allowance, Support under part V1 of the Immigration and Asylum Act 1999, Child Tax Credit only (with income under £16,105), both Working Tax Credit and Child Tax Credit (with an income up to £7,500) may also still be entitled to grants for footwear and clothing for their children.

Parents who may be unsure whether they can apply should contact the Council Contact Centre on 01294 310000 or the Council’s Welfare Reform Team on 0300 99 4606 for further advice. Information and application forms may be obtained from schools.

Free School Meals
Children of parents receiving Universal Credit (claimants’ monthly income must not exceed £625.00), Income Support, Income based Job Seeker’s Allowance, any income related element of Employment and Support Allowance, Support under part V1 of the Immigration and Asylum Act 1999, both Working Tax Credit and Child Tax Credit (with an income up to £7,500) are entitled to a free midday meal and free milk. Parents and Carers should contact 01294 310000 for further information.

Please Note: ALL pupils in P1-4 are entitled to a free school meal, which includes milk.

Other than P1-P4 pupils, only those children whose parents receive job seeker’s allowance or income support will be entitled to free milk. Milk may however be available for purchase in the school during the lunch period.

School Transport Policy
North Ayrshire Council has a policy of providing free transport to all primary pupils who live more than two miles from their catchment area school by the recognised shortest suitable walking route or through this link:

https://www.north-ayrshire.gov.uk/Forms/EducationalServices/free-school-transport.docx

These forms should be completed and returned before the end of February for those pupils beginning school in August to enable the appropriate arrangements to be made.

Applications may be submitted at other times throughout the year but may be subject to delay while arrangements are made. The appropriate officer has discretion in special circumstances to grant permission for pupils to travel in transport provided by the authority, where places are available, and no additional costs are incurred.

Where free transport is provided it may be necessary for pupils to walk a certain distance to the vehicle pick-up point. Walking distance in total, including the distance from home to the pick-up...
point and from the drop-off point to the school in any one direction, will not exceed the Council's limits (see above section). It is the parents’ responsibility to ensure that their child arrives at the pick-up point on time. It is also the parents’ responsibility to ensure that their child behaves in a safe and acceptable manner while boarding, travelling in and leaving the vehicle. Misbehavior can result in children losing the right to free transport.

Please see attached link to the Council’s School Transport Policy:

Section 4: School Registration, Enrolment and Attendance

Registration and Enrolment
The date for registration of school beginners is advertised in the local press and is normally in January each year. Pupils will be registered in the school for their catchment area.

Parents are provided with information about the school and procedures for making placing requests, if required. Arrangements for meetings with parents and induction days for pupils will be notified during the spring and summer terms.

Parents of pupils who have moved to the area or who wish their child to transfer to the school should contact the school office for information about appropriate procedures and to arrange a visit to the school.

Parents are welcome to contact the Head Teacher at any time by visiting or telephoning the school.

Attendance at School/Lateness
It is the responsibility of parents of children of school age to educate their child. Most do this by ensuring that their child attends school regularly.

Attendance is recorded twice a day, morning and afternoon. Absence from school is recorded as authorised, unauthorised or temporarily excluded.

Parents are asked to inform the school by letter, text or telephone if their child is absent confirming the reason for absence. If there is no explanation from a child’s parents, the absence will be regarded as unauthorised.

Every effort should be made to avoid family holidays during term time as this both disrupts the child’s education and reduces learning time. Parents should inform the school by letter, before going on holiday, of the dates. Such absence will be authorised only where certain and very specific family circumstances exist. The majority of family holidays taken during term time will be categorised as unauthorised absence.

Parents may request that their children be permitted to be absent from school to make an extended visit to relatives. Only written requests detailing the destination, the duration and the provision that will be made for their continuing education will be granted. Such extended absences will be recorded separately from the normal attendance and absence information.

The School Inclusion Worker investigates unexplained absence, and the authority has the power to write to, interview or prosecute parents, or refer pupils to the Reporter to the Children’s Panel, if necessary.

Structure of Classes
Primary schools educate pupils at seven broad year stages, Primary 1 to Primary 7. A year stage is defined as a group of pupils entering primary education at a common date. Schools are staffed based on the total number of pupils. However, the numbers of pupils at each year stage will vary. This means that Head Teachers are required to organise classes to make best use of available staff, resources and space to the benefit of all children in the school.

Pupils may, therefore, be taught in a single stage class or a composite class where two or more year stages are grouped together. This may also change as pupils move from one year to the next.
National guidelines on the curriculum indicate that pupils should progress through learning experiences tailored to their own needs and abilities. This means that pupils in all classes follow programmes designed to help them progress at their own level. This applies to all pupils regardless of whether or not they are in a composite or single year stage class.

The National agreement on class sizes states that the maximum number of pupils in a class is 25 in P1, 30 in P2–P3, and 33 in P4–7. In a composite class, the maximum number is 25.

**Transfer to Secondary School**
Pupils are normally transferred between the ages of eleven and a half and twelve and a half, so that they will have the opportunity to complete at least 4 years of secondary education. Parents will be informed of the arrangements no later than January of the year preceding the date of transfer at the start of the new session.

St. Mary’s Primary School is an associated primary school of:

**St. Matthew’s Academy**  
Jack’s Road, SALTCOATS, KA21 5NT  
Telephone No: 01294 606680

During their time in P7, pupils are taken to St Matthew’s Academy as part of the induction programme. Teachers from local primary schools and their secondary colleagues have worked together to create a Pupil Profile of Achievements which will be completed in Primary 7 and passed onto the secondary school. Teachers from both schools liaise to ensure a smooth transition which focuses on progression for pupils. Parents will be informed of the details of the visits when appropriate.
Section 5: Curriculum for Excellence

Curriculum for Excellence is the national curriculum for Scottish schools for learners from age 3 to 18. It aims to raise standards, prepare our children for a future they do not yet know and equip them for the jobs of tomorrow in a fast changing world.

Curriculum for Excellence enables professionals to teach subjects creatively, to work together across the school and with other schools, to share best practice and explore learning together. Glow, Scotland’s unique, world-leading, online network supports learners and teachers in this.

Teachers and practitioners will share information to plan a child’s “learning journey” from 3-18, ensuring children continue to work at their own pace whilst providing challenge upon which they can thrive.

Curriculum for Excellence balances the importance of knowledge and skills. Every child is entitled to a broad and deep general education where every single teacher and practitioner will be responsible for literacy and numeracy – the language and number skills that unlock other subjects and are vital to everyday life. There is emphasis too on health and wellbeing – to ensure that the school is a place where children feel safe and secure.

Curriculum for Excellence develops skills for learning, life and work to help young people go on to further study, secure work and navigate life. It brings real life into the classroom, making learning relevant and helps young people apply lessons to their life beyond the classroom. It links knowledge in one subject area to another helping children understand the world and make connections. It develops skills so that children can think for themselves, make sound judgements, challenge, enquire and find solutions.

Children’s progress is assessed using a broad range of approaches to ensure children achieve their potential. Ultimately, Curriculum for Excellence aims to improve our children’s life chances, to nurture successful learners, confident individuals, effective contributors, and responsible citizens, building on Scotland’s reputation for great education.
Curriculum for Excellence: The Capacities

successful learners
with:
- enthusiasm and motivation for learning
- determination to reach high standards of achievement
- openness to new thinking and ideas
and able to:
- use literacy, communication and numeracy skills
- use technology for learning
- think creatively and independently
- learn independently and as part of a group
- make reasoned evaluations
- link and apply different kinds of learning in new situations.

confident individuals
with:
- self-respect
- a sense of physical, mental and emotional wellbeing
- secure values and beliefs
- ambition
and able to:
- relate to others and manage themselves
- pursue a healthy and active lifestyle
- be self-aware
- develop and communicate their own beliefs and view of the world
- live as independently as they can
- assess risk and make informed decisions
- achieve success in different areas of activity.

responsible citizens
with:
- respect for others
- commitment to participate responsibly in political, economic, social and cultural life
and able to:
- develop knowledge and understanding of the world and Scotland’s place in it
- understand different beliefs and cultures
- make informed choices and decisions
- evaluate environmental, scientific and technological issues
- develop informed, ethical views of complex issues.

effective contributors
with:
- an enterprising attitude
- resilience
- self-reliance
and able to:
- communicate in different ways and in different settings
- work in partnership and in teams
- take the initiative and lead
- apply critical thinking and new contexts
- create and develop
- solve problems.

To enable all young people to become:

Further Information about Curriculum for Excellence and the Experiences and Outcomes can be found on the Curriculum for Excellence website.
Extra-Curricular Activities

Children are regularly given opportunities to participate in educational excursions e.g. visits to museums and places of interest. We aim to include at least one live theatre experience every year. Pupils may visit or be visited by a touring theatre company, performer or puppeteer. The children themselves are also involved in staging Christmas Concerts and Summer Shows which are well attended by parents and members of the local community.

Clubs are run throughout the school session by teaching staff and other outside agencies, including Active Schools and our Family Learning Team. Where possible, these are responsive to pupil interest. Recent examples include:

**Athletics, Football, STEM, Coding, Sewing, Cookery, Mandarin, Arts and Crafts, Choir and Netball.**
Assessing Children’s Progress in the Broad General Education (BGE) Early Years – end of S3

Assessment is a central part of everyday learning and teaching for children and young people. Evidence of progress is gathered on an ongoing and informal basis through asking questions, observing children working together and making formative comments on their work. Children may also assess their own work or that of their class mates; this is called self and peer assessment. Some assessment is more formal such as projects, investigations and standardised assessments.

The assessment of children’s progress throughout the BGE (Early – S3) is based on teachers’ views: their professional judgement. Teachers draw on their professional knowledge and understanding of the child; on the benchmarks for literacy and numeracy, which provide clear information about what children and young people should be able to do and demonstrate by the end of a Curriculum for Excellence Level; and on a wide range of assessment information.

Teachers of P1, P4, P7 and S3 are asked at the end of every school year whether children have achieved the relevant Curriculum for Excellence level for their stage in reading, writing, talking and listening (literacy), and their ability to understand and work with numbers (numeracy). Most children are expected to have achieved the early level by the end of P1, first level by the end of P4, second level by the end of P7 and third or fourth level by the end of S3.

The government has also introduced new national standardised assessments which cover some aspects of reading, writing and working with numbers. These assessments are completed online and are automatically marked by the online system giving teachers immediate feedback to help plan next steps and support children’s progress.

Teachers remain best placed to know how the children in their class are progressing. Their professional judgement will continue to be the most important way of assessing your child’s progress at school.

As a parent, you continue to have a key role in helping your child to learn. Your child’s teacher will keep you informed about how your child is progressing. Please contact us if you have any concerns about their learning, assessment or for more information on how you can support your child’s learning at home.

Homework
Parents have a very important role in helping their children to get the best out of school and it is important that they take an active interest in their child's progress at school. This can be done by:

- Encouraging hard work and high standards at all times
- Stressing the importance and relevance of what is learned at school
- Supporting the school's policy on homework and discipline

The type of homework will vary depending on the age and ability of individual pupils. Reading commonly forms part of the homework set and will be specified by the teacher on a reading marker. Parents are encouraged not only to read with their child but also to discuss the story and pictures.

In the early and middle stages oral reading should be practiced regularly at home whereas in the upper primary, where children are competent in the mechanics of reading, a greater emphasis may be placed on silent reading and comprehension. Reading for enjoyment should be encouraged at all stages.
Spelling is also an important part of homework from P3 onwards (although some children may be asked to practice even earlier). Maths/numeracy homework will be given to consolidate understanding and proficiency at all stages of the school.

From time to time pupils are given assignments and personal projects which may involve research, investigation, preparing a speech, learning a poem or a similar activity.

At the moment, homework is completed predominantly through Seesaw. We really appreciate the involvement of parents and are very grateful to those who oversee homework and support their child’s learning.
Section 6: School Improvement

S&Q Report/Improvement Plan

Schools in North Ayrshire follow a Quality Improvement process designed to highlight strengths and identify areas for improvement. The process is based on the school’s self-evaluation process with Heads of Service and Senior Managers involved in at least three formal validation visits each session.

This validation process involves talking to pupils, staff and parents about learning and improvements made by the school. This results in actions for improvement for the school to take forward in their planning process.

In addition, themed reviews are undertaken from time to time e.g. to look and report on the quality of the Broad General Education (3-18) and Senior phase Education within secondary schools. This process is based upon standards and expectations contained within the following National Standards documentation:

- National Improvement Framework
- How Good is Our School? 4
- How Good is Our Early Learning and Childcare?

A Standards and Quality Report and School Improvement Plan are produced on an annual basis by every school and centre. Staff, Parents/ Carers, Young People and School Partners will play an active role in the development of these key school documents.

https://blogs.glowscotland.org.uk/na/stmaryspslargs/
Section 7: Support for your Child

- An inclusive approach to education promotes tolerance and a positive understanding of diversity.
- An inclusive approach to education alleviates the barriers to learning, supports the achievement of all and has positive relationships at its heart.

The presumption of mainstream as outlined in the Standards in Scotland’s Schools (2000) sets out that children will be educated in a mainstream setting unless exceptional circumstances apply. North Ayrshire therefore has a duty to ensure that clear assessment outlines the additional support needs of a child or young person which may require support in an alternative provision.

Where this is the case, North Ayrshire has a clear process that supports the Team around the Child to make a recommendation for consideration of alternative provision. This is outlined in the Standard Circular E19 and requires establishment staff to work with parents/carers to ensure all supports have been put in place to support a child or young person in their mainstream context before submitting clear evidence of what has been implemented and going on to request alternative provision. North Ayrshire council staff will then make a recommendation based on the evaluation of this evidence and a review of the needs of the young person and the current peer group in each setting.

The Education (Disability Strategies and Pupils’ Educational Records) (Scotland) Act, October 2002, requires local education authorities to prepare and implement accessibility strategies to improve, over time, access to education for young people with disabilities. Access covers:

- The physical building and grounds
- The curriculum (both formal and informal)
- Information on any educational planning that might affect the child’s/young person’s education

The Education (Additional Support for Learning) (Scotland) (2009) Act sets out certain duties on local education authorities and confers certain rights on children and their parents. These duties include the need to:

- Identify, assess and address the need for additional support for any child or young person failing to benefit from school education, for whatever reason
- Seek and take account of the views of the child or young person on issues relating to their education
- Engage in helpful partnership working with parents/carers and staff from other agencies

These are the various pieces of legislation that support the right to inclusion and that define the main features of that right.

Additional Support for Learning
Any child who needs more or different support to what is normally provided in schools or pre-schools is said to have ‘additional support needs’. This includes children who may need extra help with their education as a result of issues arising from social and emotional difficulties, bullying, physical disability, having English as an additional language, a sensory impairment or communication difficulty.

FAITH COMPASSION AMBITION RESPECT
The Additional Support for Learning Act

Main provisions of the Act
- The Act provides the legal framework underpinning the system for supporting children and young people in their school education, and their families.
- This framework is based on the idea of additional support needs. This broad and inclusive term applies to children or young people who, for whatever reason, require additional support, long or short term, in order to help them make the most of their school education and to be included fully in their learning.
- The 2009 Act automatically deems that all looked after children and young people have additional support needs unless the education authority determine that they do not require additional support in order to benefit from school education.
- In addition, education authorities must consider whether each looked after child or young person for whose school education they are responsible requires a co-ordinated support plan.

Duties under the ‘Additional Support for Learning’ legislation
North Ayrshire must assess any pupil with additional support needs and provide with any support necessary for them to benefit fully from their education. All the evidence says that it is best to intervene early to prevent any difficulties developing and taking root. For example, by making sure reading is very well taught and that all pupil gets encouragement and support at home we can hopefully reduce later difficulties.

Whatever the type of challenge that arises, it is important to detect it early, develop a shared understanding of what is needed (the school may request extra specialised help to do this) and take action to help to pupil achieve. Whenever we start this process for any child or young person, we will always explain to them and to their parents/carers what our concerns are and what we will do to help.

The school can get support from a range of visiting professionals including Educational Psychologists. These professionals are regularly in all schools and teachers and others will ask for informal advice on supporting pupils for example on the best way to support a pupil who is having difficulties with reading. If the school wants more detailed individual help, then they would talk to you about formally involving the educational psychologist. The educational psychologist can only be involved in consultation, collaborative assessment and planning interventions for your child after you agree to this.

For a few children and young people their needs are so complex that professionals from two or more agencies need to work together over a significant length of time to enable the child to benefit from school education.

The authority approach to staged intervention has been updated to take ensure it is line with the CYP (2014) and ASL (2004) (amended 2009) Acts. The aim is to ensure children and young people get the right support at the right time.

Where a child or young person has additional support needs, extra planning is required every time there is a move to a new class, new school or college. How far ahead this transition planning needs to start depends on the particular type of needs but for most children and young people with
Additional Support Needs transition planning should start at least one year before the date of the planned move.

Detailed advice on transition planning is provided in the Supporting Children’s Learning Code of Practice, which can be accessed at the following link:

Dispute Resolution Procedures
If you feel that things are not being done properly to support your child then the Council has a range of ways to work with you to resolve any issues. You can ask at any time for a copy of the booklet called ‘Resolving Disagreements’. This booklet will give you ways to make sure your concerns are listened to and addressed.

Further Support
The following organisations are able to provide advice, further information and support to parents of children and young people with ASN.

Getting It Right for Every Child – Ensuring their Wellbeing

The Children and Young People (Scotland) Act 2014 puts children and young people at the heart of planning and services and ensures their rights are respected across the public sector. It seeks to improve the way services work to support children, young people and families.

- The act ensures that all children and young people from birth to 18 years old have access to a Named Person.

- The act puts in place a single planning process to support those children who require it.

- The act places a definition of wellbeing in legislation.

- The act places duties on public bodies to coordinate the planning, design and delivery of services for children and young people with a focus on improving wellbeing outcomes, and report collectively on how they are improving those outcomes.

Taking a ‘Getting it Right for Every Child’ approach to supporting every child is a priority within our school and we aim to assist every child in our school to reach their potential. The wellbeing of children and young people is at the heart of Getting it right for every child. The approach uses eight areas to describe wellbeing in which children and young people need to progress in order to do well now and in the future.

The eight indicators of wellbeing (SHANARRI)

<table>
<thead>
<tr>
<th>Safe</th>
<th>Healthy</th>
<th>Achieving</th>
<th>Nurtured</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active</td>
<td>Respected</td>
<td>Responsible</td>
<td>Included</td>
</tr>
</tbody>
</table>

Why we have to get it right for every child

Education Services must safeguard, support and promote the wellbeing of all children and young people and address need at the earliest opportunity. These functions are the responsibility of schools and establishments and those who work in them and with them. All who work in Education Services and in partnership with Education Services have a responsibility to ensure the wellbeing of North Ayrshire’s children and young people.

For more information on Getting it Right for every Child in North Ayrshire go to www.girfecna.co.uk

Psychological Services

The Educational Psychology Service in North Ayrshire is part of and contributes to the aims of Education Services by improving outcomes for children and young people. Educational Psychologists work together with teachers, parents and other professionals to help children and young people achieve their full potential, within educational settings and the wider community. Educational Psychologists are involved in working with individuals, but also have a significant role in offering training, support and consultation to increase capacity in education establishments on a wide range of issues. They are also involved in supporting research to evaluate how effective approaches to support children and young people are.

FAITH COMPASSION AMBITION RESPECT
Your child’s school/ Early Years Centre already has a system of staged intervention for identifying, assessing, monitoring and reviewing the ongoing progress of all children and young people. As part of this wider system of support, each school and authority early years centre has a link educational psychologist.

When concerns arise about a particular child or young person the establishment will take action to address these concerns. If the concerns continue, school/ early years may have an informal discussion with the educational psychologist and ask about general advice.

If needed, a formal consultation meeting with parents/carers involving the educational psychologist can then be arranged. This will be discussed with you beforehand. This may be a one off or may lead to longer term involvement. Through this process the educational psychologist can, if required, contribute to the ongoing assessment and support for your child including providing support to the family. The educational psychologist will be involved while there is a specific role for them and will use a strengths based, solution oriented approach which takes into account the wider context of the child, family and community.

Find out more at:

http://www.northayr-edpsychs.co.uk/

Data Protection
Personal data is required to be collected by North Ayrshire Council in order to deliver education services. It is necessary to collect personal data regarding pupils, parents, carers and other individuals to enable us to carry out our duties under the Education (Scotland) Act 1980 and the Education (Scotland) Act 2016.

The Data Protection Act 2018 sets out the legal basis for processing data. You can refer to our privacy notice for details of the different basis under which we may process individuals’ data.

We may also share or receive an individual’s personal data with the following:

- Scottish Government & Education Scotland
- Private Nurseries
- Strathclyde Passenger Transport
- Scottish Children’s Reporter Administration
- Social Work Services
- Scottish Public Services Ombudsman

Where we are required we will also make disclosures required by law and may also share information with other bodies responsible for detecting/preventing fraud or auditing/administering public finds. Individuals’ have legal rights under the data protection legislation including the right of access. Further details can be found in the Council’s Privacy Policy at:

Medical and Health Care
Medical examinations are carried out at various times during a child’s primary school years. Parents are given notice of these and encouraged to attend. Vision and hearing tests and dental
examinations, which parents need not attend, are also carried out and parents informed of any recommended action or treatment. All examinations are carried out by Ayrshire and Arran Health Board staff.

If a pupil takes ill or has an accident at school, which requires that the child be sent home or for treatment, First Aid will be provided and parents or carers contacted immediately. (In the event of a serious illness or accident, a member of staff will accompany the child to a doctor or hospital and parents/carers will be notified immediately.) For this reason it is important that the school has contact details for parents/carers and an additional contact person in case parents/carers cannot be reached. It is also important that the school is kept fully informed and updated with regards to any medical condition.

It is the parent’s responsibility to notify the school and keep medical information updated as required.

Children will not be sent home unaccompanied.
Section 8: Parental Involvement

Parental Engagement and Involvement

North Ayrshire Council Positive Family Partnership Strategy

NAC Parental Involvement Strategy

All schools have clear systems in place for communicating with everyone in the parent forum. Communications with parents are clear, jargon-free, specific and easily accessible. A variety of methods and approaches are used by schools to communicate with the parent forum including face to face, traditional communication methods and digital media e.g. Twitter, Facebook. Considerations will always be given when communicating with parents who have literacy, language and communication challenges.

Schools ensure that parents know who to contact when they wish to discuss their child’s learning or wellbeing and will seek to provide a private space for such discussions and make sure parents are given adequate time and support. Consideration will be given to family circumstances.

Parents are welcome to contact the school at any time to arrange an appointment to discuss any matter with the class teacher, Depute Head, Head Teacher or Head of Centre. New families are welcome to contact the school and request a suitable visiting time at any point throughout the session.

Parents are given opportunities to understand the way learning and teaching takes place in the classroom. This may be in the form of class visits to take part in the learning experience alongside their child or attending events which share the learning. Frequent invitations are issued to parents to participate in school activities such as open days, class assemblies, workshops and to assist with outings and visits, sports and concerts. There will be a series of early meetings for the parents of Primary 1 pupils and parents are kept informed of events with a range of newsletters, website updates, texts, invitations and social media sites.

A variety of methods will be used to ensure information about your child’s progress is shared. Schools are encouraged to provide parents/carers with information on their children’s progress at regular intervals throughout the year through a range of activities. There is an expectation that part of this will be in a written format.

Parent Council

The Scottish Parliament has passed a law called the Scottish Schools (Parental Involvement) Act 2006 to encourage and support more parents to become involved in their children’s education.

The main aims of the Act are to:

- Help parents become more involved with their child’s education and learning.
- Welcome parents as active participants in the life of the school.
- Provide easier ways for parents to express their views and wishes.

To help achieve these aims, all parents will automatically be members of the Parent Forum at their child’s school and will be entitled to have a say in selecting the Parent Council (representative body) to work on behalf of all parents at the school.

The objectives of the Parent Council are:

- To work in partnership with staff to create a welcoming environment which is inclusive for all parents.
- To promote partnership between the school, its pupils and all its parents.
- To develop and engage in activities which support the education and welfare of the pupils.
- To identify and represent the views of parents on the education provided by the school and other matters affecting the education and welfare of pupils.
- To be involved in the recruitment process for appointing the Head Teacher and Depute Head Teacher of the school.

St. Mary’s Primary has an active Parent Council which can be found at https://www.facebook.com/stmarysprimaryparentcouncil

They work tirelessly to support the work and life of the school e.g. Eco initiative and playground development. A regular Council Newsletter is sued to families and displayed on the Council’s board at the school main entrance.

The Chairperson, Lisa Bilsland, can be contacted through the school office.

Any parent or carer of a child at the school can volunteer to be a member of the Parent Council. The Head Teacher is the professional adviser to the Parent Council and has a right to attend and speak at the Parent Council or Parent Forum meetings.

For more information on the Parental Involvement Act or to find out about parents as partners in their children’s learning please contact the school or North Ayrshire Council Education & Youth Employment or visit the Parentzone website on www.parentzonescotland.gov.uk.
Parentzone Scotland is a unique website for parents and carers in Scotland, from early years to beyond school. The website provides up-to-date information about learning in Scotland, and practical advice and ideas to support children’s learning at home in literacy, numeracy, health and wellbeing and science.

Information is also available on Parentzone Scotland regarding additional support needs, how parents can get involved in their child’s school and education. Furthermore, the website has details about schools including performance data for school leavers from S4-S6; and links to the national, and local authority and school level data on the achievement of Curriculum for Excellence levels.

Parentzone Scotland can be accessed at https://education.gov.scot/parentzone.
Section 9: Pupil Data Collection and Protection Policies

The Scottish Government and its partners collect and use information about pupils through the Pupil Census to help to improve education across Scotland. This note explains why we need this information, how we use it and what we do to protect the information supplied to us.

Why do we need your data?
In order to make the best decisions about how to improve our education service, Scottish Government, education authorities and other partners such as the SQA and Skills Development Scotland need accurate, up-to-date data about our pupils. We are keen to help all our pupils do well in all aspects of school life and achieve better examination results. Accurate and up-to-date data allows us to:

- plan and deliver better policies for the benefit of all pupils
- plan and deliver better policies for the benefit of specific groups of pupils
- better understand some of the factors which influence pupil attainment and achievement
- plan and implement targeted approaches to reducing the poverty-related attainment gap
- share good practice
- conduct teacher workforce planning
- target resources better
- enhance the quality of research to improve the lives of young people in Scotland
- provide a window on society, the economy and on the work and performance of government by
  - publishing statistical publications and additional tables about School Education
  - providing school level information

Data policy
Information about pupils’ education is collected through our statistical surveys in partnership between the Scottish Government and Local Authorities through the ScotXed Programme which aims to help schools and Local Authorities by supporting efficient collection, processing and dissemination of statistical information. The Scottish Government then provides analysis of the data to support research, planning, management and monitoring of education services as well as to produce National Statistics publications.

Education data within Scottish Government is managed effectively by secure systems on secure servers and is exploited as a valuable corporate resource, subject to confidentiality restraints. As part of its data policy, Scottish Government will not publish or make publicly available any information that allows individual pupils to be identified, nor will data be used by Scottish Government to take any actions in respect of individuals. Data is held securely and no information on individual pupils can or would be made publicly available by Scottish Government.

The individual data collected by Scottish Government through the Pupil Census is used for statistical and research purposes only.

Your data protection rights
Any sharing or linkage of data will be done under the strict control of Scottish Government, and will be consistent with their data policy and the National Data National Data Linkage Guiding Principles Guiding Principles. Decisions on the sharing or linkage of data will be taken in consultation with relevant colleagues and individuals within and outwith Scottish Government as part of a Data Access Panel. At all times the rights of the individual (children or adults) under the GDPR and other relevant legislation will be ensured. Further information can be found on:
Concerns
If you have any concerns about the ScotXed data collections you can email the Data Protection & Information Assets Team on dpa@gov.scot or the Head of Education Analytical Services, Mick Wilson, at mick.wilson@gov.scot or by writing to Education Analytical Services, Area 2A-North, Victoria Quay, Leith, EH6 6QQ. Alternative versions of this page are available, on request from the ScotXed Support Office, in other languages, audio tape, Braille and large print.

Alternatively complaints may be raised with the Information Commissioners Office at casework@ico.org.uk.
