**Onshore works—expected timings**

### When will the offshore works be carried out?

The offshore construction works will start on 16 September and are scheduled until February 2024 and involves construction of an Eastern and Western offshore breakwater (1a and 1b on the map).

The offshore rockworks will be executed 24 hours a day, 7 days per week, for the duration.

Aside from the offshore rockworks, the following foreshore construction is scheduled:

- Rock groyne and revetment at Milburn Street/ Crichton Street (2)
- Rock revetment at Milburn Street (3)
- Rock revetment at Clyde Street (4)
- Rock revetment on the foreshore at Glasgow Street/ Kelburn Street (5)

The foreshore rockworks will be constructed between October and February 2024 and are scheduled during day time hours to minimise disturbance.

### What are the working hours?

The working hours for onshore works are:

- 0730 to 1730 Monday-Friday.
- 0730 to 1300 Saturday.
- No working Sundays and bank holidays.

### What is happening at Kames Bay?

Fencing has been erected at Kames Bay, although the main works for the Millport Coastal Flood Protection Scheme, are scheduled to begin in autumn 2023.

Fencing has been erected around the western section of Kames Bay so that suitable excavated material can be placed in areas where existing ground levels need to be increased to meet the new design profile and provide flood protection.

### Where can I find out more?

For more information about the Millport Flood Protection Scheme please visit the website:

<http://www.north-ayrshire.gov.uk/MillportFPS>

Or Email:

- The Community Liaison Officer (CLO) email address (the contractor):  
[clo.mcfps@vanoord.com](mailto:clo.mcfps@vanoord.com)

Or Phone:

- CLO phone number (monitored Mon-Fri 0930 to 1700) 07868 370448

Or Visit in Person:

- Project Information Unit (on Glasgow St) Open Wednesday afternoons

**I heard there is a project information unit – when is it open?**

- Wednesday afternoons (12 noon to 5 p.m.)
