

Cumbræ-Craft: Marine Station!

Lesson 5: Part 1

The Marine Station at Millport is the oldest existing marine station in Scotland, dating back to the late nineteenth century. Today we will be finding out what Marine Station is used for today.

What to do:

Explore the two floors on Marine Station to find out what some of the rooms are and what they are used for. Record what you find out below.

Classroom:

Conference Room:

Library:

Laboratory:

Guest Room:

Lesson 5: Part 2

It is now time to visit the aquarium and learn more about the sea life around Cumbrae and Scotland. On the ground floor of Marine Station at the back left there is a door - the second part of the lesson starts through here.

What to do:

Make your way downstairs to the aquarium. Here you will learn about some of the sea life around Cumbrae and Scotland - see if you can answer the questions below.

- 1. What is happening to the cod populations around Scotland and why?**
- 2. Where have Orcas been spotted in Scotland?**
- 3. Can you name some Jellyfish that are local to Scotland?**
- 4. Once salmon are adults, where do they migrate to?**
- 5. How old are some of the coral reefs in Scotland?**
