

Cumbræ-Craft: Tutorial!

Welcome to Cumbræ-Craft! We hope you are excited to see the world and to try out the first lesson.

Don't worry if you have never played Minecraft - when you start there will be a short tutorial to go through that will let you know everything you need to get through the lessons.

Below are some of the controls in case you forget.

Complete the tutorial to begin the first lesson!

Cumbræ-Craft: Tutorial!

You are also able to customise your character from the game's menu by clicking this icon:

You will then be able to pick a different skin for your character model!

Tutorial

After you have completed the tutorial you will find yourself in a photography shop. Here you will be given your own camera and portfolio for taking pictures throughout the lessons! Read the signs in game to learn how they work.

After you have got your camera and portfolio, look for a person called 'Hubby'. They are the NPCs that will transport you back to the hub world after each lesson, and you will find them all over Cumbrae.

Talk to Hubby and they will transport you to the Hub world - here you can make your way down the stairs and to the first lesson. Use the worksheets provided to help complete each lesson and have fun!
